TILE
WAREHOUSE

...for Design Inspiration!

Tile Warehouse is New Zealand's exclusive supplier of Quarella Italy, the world's leading manufacturer of engineered composite stone tiles and slabs. Quarella Quartz has bridged the gap between nature and technology, with uncompromisingly solid surfaces that are virtually maintenance free.

Quarella Quartz is engineered composite stone made using state-of-the-art production techniques that mixes exceptionally high quantities of natural quartz (95%) with a specialised bonding agent. Quarella's unique manufacturing process delivers a highly consistent material with uniform density and porosity levels – the result is a superior benchtop material that is:

- > Acid & Chemical resistant
- > Non porous
- > Colour consistent
- > Easy to clean
- > Stain resistant
- > Scratch resistant
- > Heat resistant
- > Hygienic

Tile Warehouse offers a total service, from quotation, supply, manufacture and installation combined with an ongoing commitment to after sales service and advice.

Customised! Quarella Quartz benchtops can be made with a wide variety of edge details from 20mm thick to over 200mm in thickness. Accessories such as under mounted polished cutouts to accept stainless steel sinks, integrated sink inserts and polished drainers (with or without grooves) can be incorporated into your benchtop design.

Tile Warehouse Quality Warranty

Tile Warehouse only imports First Quality slabs from reputable manufacturers. We know quality is important, therefore we warrant the performance of all our Quartz benchtops for a period of 5 years from date of installation.

Refer to our Quarella Warranty card for conditions of warranty.

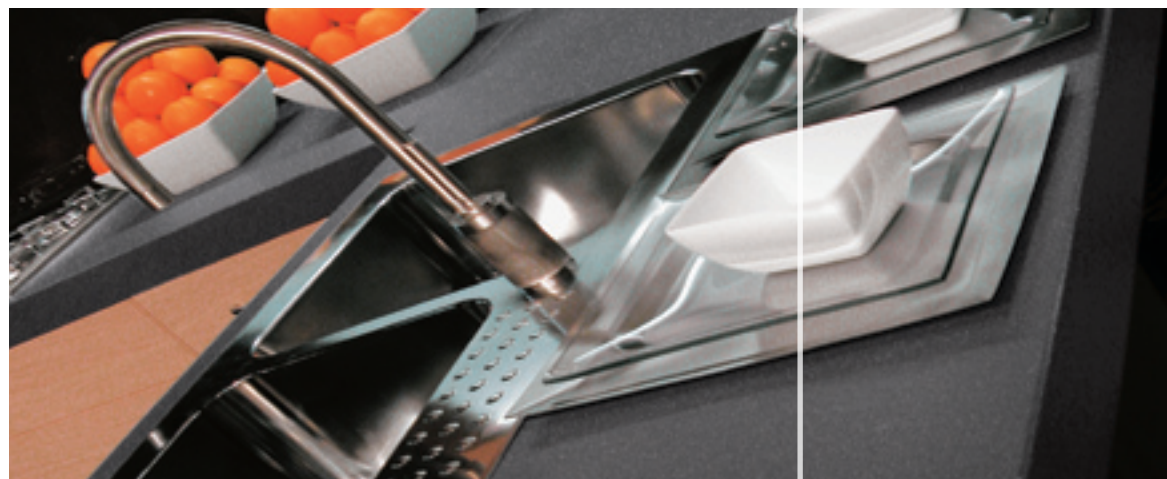

Rest at ease knowing you have purchased First Quality Benchtops & Vanities manufactured to the highest quality.

Life is too short for compromises.

Chenille Quartz... for Benchtops & Vanities

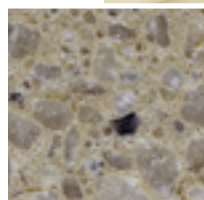

Chenille Gris Antracita

"At our new showroom in Parnell, we wanted to make a statement with new & innovative materials.

New Chenille Quartz has a unique finish and texture providing a surface with stunning visual appeal and with all the benefits that come with a Quarella Quartz benchtop."

- Sue Gillbanks
Kitchens by Design

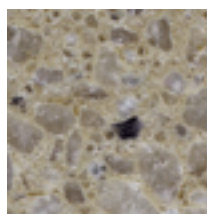

Chenille Beige Capri 30mm

innovation, quality & texture

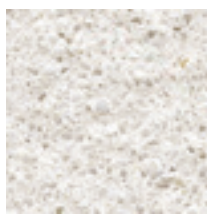

In addition to the extensive range already available exclusively through Tile Warehouse, Quarella introduces the new 'Chenille' Quartz finish available in Blanco Paloma, Beige Capri, Gris Antracita and Gris Serena in 30mm thickness.

Best described as an unpolished matt surface with a textured finish, Chenille has a natural feel that provides a warmth of finish unavailable in polished stone.

Chenille Limestone... for Benchtops & Vanities

Chenille Donatello

Chenille Donatello

Chenille Limestone has been developed to meet the latest European design trends, making it easier for us to keep up with the Italians, and who knows... maybe even ahead!

Come into Tile Warehouse and be inspired by the most innovative benchtop solutions available.

warmth & style second to none

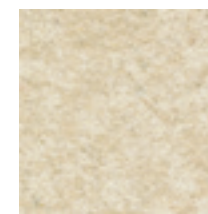

New Chenille 'finished' Limestone is a revolutionary material suitable for vanities and in some cases benchtops. Available in 20mm thickness, the brushed petina gives a natural warm finish.

In a kitchen environment care needs to be taken with use & maintenance as Limestone has different material characteristics to quartz and therefore needs to be treated accordingly. (Limestone & Marble based stones are not warranted for kitchen benchtops)

Quarella
Quality solutions for benchtops & vanities.

Flexible but Strong

Quarella Quartz & marble is available in slabs 3000x1300mm (Quartz) and 3000x1200mm (Marble) and in standard Tile Modules of 300x300, 400x400, 600x300 & 600x600mm. In Quartz the thickness options are 12, 20 & 30mm, or in Marble, 20, 30mm or even up to 100mm (on special request). Quarella quartz is extremely durable being manufactured to the highest technical standards of Breton Quartz production.

When the flexibility of size and thickness is combined with our New Zealand based state-of-the-art manufacturing plants staffed by skilled stonemasons we can manufacture virtually any shaped kitchen benchtop, vanity, fireplace hearths or slab for interior or exterior cladding. We can even clad your bathroom walls or shower enclosure in 12mm Quartz or 20mm Marble for a seamless easy clean finish.

In short we can work with you and meet all of your requirements for specialised cut to size work and coordinate this with tiles as well.

Peace of mind

We manufacture and warrant only 20mm or 30mm solid Quarella Quartz benchtops which are structural stone benchtops. We do not manufacture veneer finished Quartz in 6 or 8mm that is required to be laminated to another substrate. Veneer products are manufactured differently and consequently achieve different levels of density and porosity.

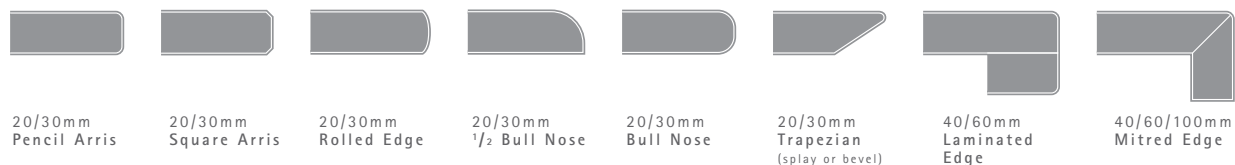

When ordering your Quarella Quartz benchtop from Tile Warehouse you can rest assured you are receiving Italian quartz of the highest quality and the manufacturing is carried out by our skilled stonemasons who craft the slab into a benchtop of distinction.

As a substantial New Zealand company we offer an unrivalled 5 year warranty on materials and workmanship when we supply and install a Quarella Quartz benchtop. This is a real warranty against defects that materially affect its appearance and use during a 5 year period. There are some exclusions due to third party actions but you will have peace of mind. To date we have not had one claim under our warranty which indicates how good we are. Maybe that's one of the reasons Quarella was Award winning at the AGM 2005 specifiers choice awards.

Benchtop Edge Details

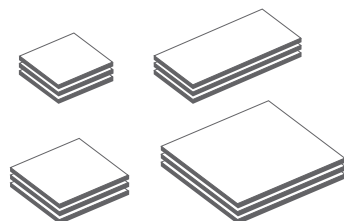

Please find below a list of standard edge details available
- other custom profiles are available, please consult Tile Warehouse for further information.

Sink/Bowl Cutout Details

Slab sizes > 3050mm x 1340mm (QUARTZ), 3060 x 1230 (MARBLE)
Slab Thickness > 20mm & 30mm (QUARTZ), 20mm (MARBLE) stocked
Tile sizes > 300 x 300 x 10, 600 x 300 x 12, 400 x 400 x 12 and 600 x 600 x 12

	Surface scratch hardness	EN 101	Mohs	6 - 7

(b) LINEA 134 and GEMME Series

The above data is indicative and not binding. The above figures are generally average values. Actual test reports can be supplied upon request.

HEALTH & SAFETY

Quarella quartz is an Inert non porous impact resistant stain and chemical resistant product that is easy to clean and maintain and will not trap dirt or bacteria so will provide you a safe hygienic work surface.

QUALITY ASSURANCE

All raw materials that go into Quarella Quartz are tested prior to production. Quarella's state of the art Breton Equipment produce a technically superior product, then our factories cut and shape the slab to the highest standards.

LIFE CYCLE COSTING

As Quarella Quartz has an extremely long life expectancy due to its technical strength and characteristics the installed cost can be spread over a very long period.

If this is compared to other materials on the market that may be cheaper but have a significantly lesser life span the actual life cycle cost of Quarella will be Less.

FUTURE-PROOFED

Tile warehouse recognises that lifestyles and needs have changed and are changing. When building or renovating homes we need to cater not only for our needs now but also into the future.

By using Quarella, a 'Future Proofed' product you can be sure it will meet the demands of your lifestyle, today & tomorrow.

Tile Warehouse ...Surface Specialists

In life and when selecting tiles or benchtops we all have choices. If we are informed and are assisted in our decision making process we will enhance our lifestyle by meeting our existing and future living requirements.

When you visit Tile Warehouse you will view the most comprehensive range of surface solutions in New Zealand. From full body porcelains to glazed porcelain, ceramic tiles to limestones, sandstones, marbles, slates, Platinum Granite and Quarella Quartz, Marble & Limestone.

With New Zealand's largest range and having 32 locations nationwide means we can listen to your requirements and through our modern showrooms, user friendly displays and trained sales consultants, assist you and/or your designer in selecting materials appropriate to meet your needs.

During selection we consider design, colour, texture, size, shape, quality, suitability and price. But most importantly we consider your needs in aesthetic and technical terms and we look to assist you in achieving inspirational tile and surface solutions.

As New Zealand's leading solid surface supplier we take away the risk. All the products we sell are guaranteed for 5 years (see terms & conditions).

Come and see New Zealand's largest and most comprehensive range of award winning solid surface solutions and as always...

Prepare to be inspired!
